

Dear Union Veterinary Clinic Pet Owner,

We received a fax for a medication you requested to be filled by 1-800-PetMeds. At this time Union Veterinary Clinic will not approve any requests from this online pharmacy.

In the past it has been proven that 1-800-PetMeds has obtained their products and approved their prescription requests in unethical and illegal ways. Our doctors feel uncomfortable recommending 1800-PetMeds to our clients and patients at this time.

We would be happy to review a request from a different online pharmacy or provide you with a written prescription should you choose to send it in to 1-800-PetMeds yourself.

Union Veterinary Clinic recommends that you research any online pharmacy before purchasing their products. If your pet has any complications caused by the products you purchased from an online pharmacy, the manufacturer or the pharmacy may not pay for your veterinary care. Heartworm and flea medication purchased at Union Veterinary Clinic is guaranteed by its manufacturers.

Thank you for understanding and please feel free to contact us with any questions.

Thank you,

Dr. Allison Gross
Medical Director
Union Veterinary Clinic
